Merlot and Merlot Blends

Merlot is a red grape that is used both as a blending grape and for varietal wines. Merlot based wines usually have medium body with hints of berry, plum and currant. Its softness and fleshiness, combined with early ripening, makes Merlot an ideal grape to blend with the late-ripening Cabernet Sauvignon.

Grenache

Grenache is probably the most widely planted variety of red wine grape in the world. It is generally spicy with dark berry flavours. The aromas are powerful, including menthol, liquorice and black pepper. Because of its strong traits Grenache is usually blended with other grape varieties such as Shiraz and Mourvedre.

2014 Geddes <i>Seldom Inn</i> Grenache	McLaren Vale, SA	\$56

Rosé

Made from red varieties, the grapes are pressed and left in contact with the skins for fermentation, but only for a little while. Enough time to obtain a pink color and some of the skins characteristics.

Shiraz and Shiraz Blends

In 1831, the Scotsman James Busby, often called “the Father of Australian viticulture”, made a trip back to Europe to collect cuttings from vines (primarily from France and Spain) for introduction to Australia. The cuttings were planted in the Sydney Botanical Gardens, and in Hunter Valley, and in 1839 brought from Sydney to South Australia.

DESSERT WINE (375ML)

Sémillon and Riesling produce most of Australia's 'sticky' wines. We offer a selection of Botrytis or "Noble Styles" where the Botrytis fungus attacks the grapes and increases their sugar levels. These wines show complex characters of lemon, apricot and honey. Cordon or Cane Cut, are where the vine branches (cordons) are cut and the fruit is cut off from the nutrients of the rest of the vine increasing the sugars in the grape, often producing a lighter style than Noble rot wines.
